1. Il contesto:

1.1 Riferimento temporale

A maggio 2021 la Linea Tematica "Scienze socio-economiche e umanistiche e opportunità di finanziamento in Horizon Europe" del CODAU ha creato un Tavolo di Lavoro per effettuare l'analisi degli "SSH flagged topics" - con scadenza 2022- di una parte del Programma Horizon Europe. Tale analisi si è completata a dicembre 2021.

1.2 Obiettivo

L'obiettivo è quello di analizzare tutti i topics – con scadenza 2022– presenti nei 6 Cluster del II Pillar del Programma Horizon Europe per individuare i cosiddetti 'SSH¹ flagged topics'. Si tratta di topics in cui i contributi delle Scienze Sociali e Umanistiche (SSH) sono parte di un approccio interdisciplinare che coinvolge la collaborazione tra discipline SSH e discipline non SSH, come le scienze naturali, fisiche e bio-scienze, medicina, scienze ingegneristiche e tecnologiche.

Questi topics, presenti in tutti i sei Cluster, prendono in considerazione, a seconda dei casi, la dimensione sociale, economica, comportamentale, istituzionale, storica e/o culturale di una questione o problematica. Per partecipare efficacemente a tali bandi, i consorzi devono, quindi, garantire che i contributi delle SSH siano integrati nelle varie fasi del loro progetto proposto e che le azioni richieste, i partecipanti e le discipline coinvolte, nonché il valore aggiunto dei contributi SSH siano chiaramente indicati nella proposta.

La presente indagine ha anche incluso i *Social Innovation*² e i *Social engagement flagged topics*, ma, per comodità e brevità, in questo documento parleremo di 'SSH flagged topics' intendendo tutte le tre categorie.

Il presente lavoro costituisce un supporto utile da utilizzare congiuntamente con il documento "*Opportunities for Researchers from the Social Sciences and Humanities (SSH) in Horizon Europe. Analysis of SSH relevant topics-Work Programme 2021-22*" (reperibile al link: https://www.horizoneuropencppportal.eu/sites/default/files/2021-12/SSH_Opportunities%20document_2021-22.pdf) redatto dalla rete dei National Contact Points (NCP) europei. Questi due documenti si integrano in quanto il primo offre, tra le varie informazioni, una lettura degli SSH flagged topics con keywords, elementi che richiedono particolare attenzione e una classificazione per ambiti disciplinari dei singoli topics analizzati, mentre il secondo riprende tutti gli SSH topics in Horizon Europe inerenti i WP 2021-22 evidenziando le parti SSH direttamente nel testo integrale dei singoli topics.

1.3 Perché

Si è deciso di creare questo Tavolo di Lavoro al fine di evidenziare che nel nuovo Programma Quadro le tematiche delle Scienze Socio-Economiche e Umanistiche sono sempre più rilevanti. Questo, infatti, è dimostrato dal fatto che le opportunità di finanziamento in Horizon Europe in questo settore sono molteplici e sono trasversali a molte tematiche, non concentrandosi quindi soltanto nel Cluster 2 "Culture, Creativity and Inclusive Society".

¹ SSH = Social Science and Humanities

² *Social innovation* = processo di cambiamento basato su strategie e idee che portano a soddisfare lo sviluppo economico e sociale di una determinata comunità di riferimento. Gli ambiti di azione prediletti da questi processi sono istruzione e formazione, diminuzione dell'inquinamento, riuso ed economia circolare, *sharing economy* e *social housing*, miglioramento delle condizioni di lavoro, valorizzazione culturale, creativa e artistica delle competenze, delle identità e dei territori.

1.4 Destinatari

I risultati di questo lavoro sono appositamente rivolti a due categorie di utenti: 1) docenti e ricercatori, in quanto sono coloro che concretamente scrivono e realizzano i progetti; 2) personale amministrativo presente nelle varie Università italiane che fornisce supporto alle attività di ricerca, segnalando le opportunità di finanziamento, aiutando e assistendo i vari gruppi di ricerca nella stesura delle proposte. I destinatari di questo documento hanno, infatti, a disposizione un utile strumento, predisposto affinché sia di facile fruizione, che permette loro di individuare topics SSH di potenziale interesse anche in aree tematiche apparentemente distanti dalla propria.

1.5 Chi ha effettuato l'analisi

Il Tavolo di Lavoro del CODAU costituito per l'analisi degli SSH flagged topics é formato da 14 Atenei e ha coinvolto 17 persone, aventi il ruolo di personale di supporto alla Ricerca.

Come si può notare dall'elenco sottostante delle persone coinvolte, le Università partecipanti a tale Tavolo di lavoro sono di tipo sia tecnico che umanistico, elemento che arricchisce l'analisi dei bandi perché sono esaminati da diversi punti di vista interdisciplinari.

16	Laura Sangalli	Università degli Studi di Milano
17	Alice Senizza	Università Cattolica del Sacro Cuore

1.6 Cosa si è analizzato

Il Tavolo di lavoro ha deciso di analizzare tutti gli SSH flagged topics dei sei Cluster di Horizon Europe con scadenza 2022.

1.7 Metodologia di lavoro

Il Politecnico di Torino (POLITO) è il Coordinatore di questo Tavolo di Lavoro, creato nell'ambito della Linea Tematica "*SSH e opportunità di finanziamento in Horizon Europe*" che è coordinata dall'Università degli Studi di Catania (UNICT).

Al fine di suddividere il lavoro in maniera equa e coerente tra i membri del Tavolo, il Politecnico ha inizialmente estrapolato dal [Funding & Tender Portal](#) della Commissione Europea tutti i topics dei 6 Cluster di Horizon Europe filtrando solo quelli 'SSH, Social Innovation e Social Engagement flagged topics', per un totale di 167 topics con scadenza 2022.

Successivamente ha costituito, in accordo con tutti i membri, sei sotto-gruppi di lavoro, uno per ogni Cluster. Per ogni sotto-gruppo di lavoro è stato coinvolto nell'analisi un numero variabile di persone, in modo che ognuno potesse analizzare circa 10 topics. Ogni sotto-gruppo di lavoro aveva un referente, con la funzione di intermediario tra il sotto-gruppo che analizzava i topics e il POLITO e UNICT.

È stato poi condiviso il template contenente le principali informazioni da raccogliere per ciascun topic, così come appare nelle schede che seguono.

Gli Ambiti disciplinari utilizzati per categorizzare i topics sono quelli dell'UNESCO ISCED 2011 (vd. Allegato 1).

Ogni sotto-gruppo di lavoro ha poi compilato per ogni topic analizzato un Google Form, creato appositamente e condiviso tra tutti i partecipanti, da cui è stato generato un file excel di raccolta di tutti i dati. Tale file è stato infine rielaborato, grazie in particolare all'Università di Verona, permettendo la redazione delle schede riassuntive per ciascun topic.

Punti di particolare attenzione	Proposals should consider the social relevance of research, social marketing, transferability and scaling of such social innovations as this is an area where there is limited research and experimentation, which could help to spread the use of such solutions. They should also consider education, training and change individual behavioural and social practices by involving citizens and local communities as generators, validators and end-users of the new horizontal/advanced technologies. Proposals which have developed innovative ideas on societal resilience under the Destination Disaster-Resilient Society and which can transform them into social innovations for disaster crisis situations engaging citizens and local communities are not pre-empted to participate in this topic.
